World Water Day 2019 - Join the Techvelopment Spring

Sustainable Development Goal 6 is crystal clear: water for all by 2030. By definition, this means leaving no one behind. How can high-tech be used to improve the lives of the billions of people who are still living without safe water?

Engineers Without Borders Denmark (EWB-DK) has joined forces with Techvelopment Spring, a campaign by IDA, DTU, The Danish Ministry of Foreign Affairs, and UN City Copenhagen to celebrate the UN World Water Day 2019 with an event where all interested are welcome.

Join us to get inspired by the latest, WASHtech - high-tech solutions in water supply, and how they can be used in a development context. Speakers will be introduced at the [Facebook event](#) and [EWB-DK website](#). The final programme will be sent to all registered participants prior to the event.

This event is enabled by a cooperation with the Danish Ministry of Foreign Affairs.

Time: Thursday March 21nd at 5-7:30 pm. From 5 to 5:30 pm there will be arrival and registration.

Place: Eigtveds Pakhus, Strandgade 25G, 1401 Copenhagen K
